

Business Continuity Policy Statement

Introduction

This Business Continuity Policy Statement provides a commitment by Belfast Harbour to meet the business continuity requirements of our customers and other stakeholders by operating a business continuity management system (BCMS) that conforms to ISO 22301:2019, The International Standard for Business Continuity Management.

Scope

This Policy applies to all Belfast Harbour business interests.

Purpose

Business Continuity Management has been established to ensure that Belfast Harbour continues to deliver a minimum level of service to our key customers in the event of any disruption.

The business continuity policy provides a structure through which:

- A Comprehensive BCMS is established, maintained, tested, quality assured and promulgated;
- Key services, together with their critical processes, activities and supporting resources and interdependencies, are identified;
- Business impact analysis and risk assessment are applied to critical processes, activities and resources;
- Business continuity objectives are set and progress towards them is monitored, and
- Plans are developed to ensure continuity of those services deemed to be business critical at a minimum acceptable level and to achieve recovery within a specific time frame following a disruptive event.

Belfast Harbour is committed to:

- Recover key services to our customers in times of disruption;
- Make best use of personnel and other resources at times when both may be scarce;
- Minimize the period of disruption to Belfast Harbour and the customers we serve;
- Improve the resilience of our infrastructure to reduce the likelihood of disruption;
- Mitigate the operational and financial impact of any disruption;
- Review and revise plans to support business continuity at regular intervals, and
- Continually improve the suitability, adequacy and effectiveness of our Business Continuity Management System.

Policy Review

This policy statement is periodically reviewed by the Leadership Team to ensure that it remains relevant and appropriate to the scope of activities conducted by Belfast Harbour.

Joe O'Neill
Chief Executive
