

FREE Bike Maintenance and Registration Sessions

Thursday 18th May

Clarendon Dock (City Quays Car Park)
10am - 2pm

Thursday 25th May

The Arc at Titanic Quarter
10am - 2pm

Join Big Loop Bikes and Belfast Harbour Police for FREE Bike Maintenance and Registration sessions.

These events are open to anyone working or living in Belfast Harbour Estate, including Titanic Quarter. All you need to bring is yourself and your bike!

Big Loop Bikes will complete a health assessment of your bike, adjusting brakes and gears, checking all bolts are tight and that your bike is adjusted to best fit you. After the Dr Bike session is complete, the team will let you know the health of your bike, provide a check list form and discuss any repairs you need.

If your bike needs more work after the assessment, e.g. worn parts replaced, Big Loop Bikes can book it in for some further TLC at their bike shop at Queen's University Belfast.

Your bike will be in great hands as all work is carried out by Cytech professionally qualified bike mechanics.

Belfast Harbour Police will also be there on the day to offer bike crime prevention advice. They can help place your bike on the National Police approved cycle database, giving your bike a unique label that will help to warn off any potential theft.

Big Loop Bikes

Big Loop Bikes is a circular economy social enterprise of The Turnaround Project, selling, servicing and repairing bikes in our workshops around Belfast. We collect, professionally refurbish and sell used bikes at affordable prices. We also offer professional servicing and repair of all types of bikes.

Our workshops help to create training and work opportunities for people facing barriers to employment. So, as well as getting help to start their own cycling journeys, our customers help people on their journeys towards employment.

As a charity we invite people to donate their old bikes that we refurbish and sell to earn income. This supports people who are leaving the justice system, through work placements and training. If you have a bike you'd like to donate, please bring it along to the Dr Bike Session.
