

Notice in Respect of Port Charges

Crane Hire – Energy Surcharge

With effect 1 Jul 2025 the **Energy Surcharge** (Diesel and Electricity Component) applied to all crane hire charges for each inward or outward journey is suspended for the forthcoming quarter.

Following a temporary halt to HVO use in cranes in 2024, the use of HVO in the BHC Crane fleet has recommenced. The HVO surcharge will be applied this quarter to all crane hire transactions at a rate of 1.5%. The HVO surcharge will increase to the previously advised 3% in 2025 and 4.5% in 2026 as the use of HVO is rolled out more widely across the crane fleet.

The rate is as follows:

Diesel Component	£0.00 per hour of hire
Electricity Component	£0.00 per hour of hire
HVO Surcharge	£4.73 per hour of hire
Total Energy Surcharge	£4.73 per hour of hire
