

Notice in Respect of Port Charges

Pilot Boat Charge – Fuel Surcharge

With effect from 1 July 2026, the Fuel Surcharge applied to each inward and outward pilotage journey will be reinstated.

Boarding Point B	£18.09 on each inward or outward journey
Boarding Point A	£14.47 on each inward or outward journey
Boarding Point C	£25.32 on each inward or outward journey

This decision reflects the ongoing effects of the Gulf conflict and continued volatility in global energy markets, which have led to sustained increases in fuel costs over recent months. As these elevated costs have persisted beyond the previous review period, it has become necessary to reintroduce the surcharge to ensure cost recovery.

The Energy Surcharge will continue to be reviewed on a quarterly basis, aligned with the average cost of fuel consumed in the preceding three months.
